The team at BASS Morzine & Les Gets is dedicated to creating unique experiences that inspire and motivate each individual, whatever their needs. We believe that learning is a lifelong opportunity that is most enjoyable in an environment, which is supportive, innovative, and above all, a collaborative relationship between learner and coach.

Our goal is to encourage new participants to snowsports and keep existing clients engaged in learning by sharing our passion and expertise. We understand that skiing is more than 'bend the knees', it's about finding the ability to enjoy the moment, whatever your skill level or experience.
